MODEL TEST PAPER CLASS XII ARTIFICIAL INTELLIGENCE (CODE 843)

Maximum Time: 2 Hrs. Maximum Marks: 50

General Instructions:

- 1. Please read the instructions carefully.
- 2. This Question Paper consists of 21 questions in two sections: Section A & Section B.
- 3. Section A has Objective Type Questions whereas Section B contains Subjective Type Questions.
- 4. Out of the given (5 + 16 =) 21 questions, a candidate has to answer (5 + 10 =) 15 questions in the allotted (maximum) time of 2 hours.
- 5. All questions of a particular section must be attempted in the correct order.
- 6. SECTION A—OBJECTIVE TYPE QUESTIONS (24 MARKS):
 - i. This section has 5 questions.
 - ii. Marks allotted are mentioned against each question/part.
 - iii. There is no negative marking.
 - iv. Do as per the instructions given.
- 7. SECTION B—SUBJECTIVE TYPE QUESTIONS (26 MARKS):
 - i. This section has 16 questions.
 - ii. A candidate has to do 10 questions.
 - iii. Do as per the instructions given.
 - iv. Marks allotted are mentioned against each question/part.

Section A: OBJECTIVE TYPE QUESTIONS

			Section A: OBJECTIVE I	TPE	QUESTIONS	
1.	Answ	er a	ny 4 out of the given 6 questions on Employ	abil	ity Skills.	(1 x 4 = 4 marks)
	(i)	Whi	ch of the following is not a source of motivat	ion	and inspiration?	
		(a)	Music	(b)	Dreaming big	
		(c)	Living in the present	(d)	Fear	(1)
	(ii)	Whi	ch of the following traits is associated with e	mot	ional stability?	
		(a)	Calmness	(b)	Self-confidence	
		(c)	Anxiety	(c)	Cool-headedness	(1)
	(iii)v	iew a	allows you to see exactly how your workshee	t wi	ll look when printed.	
		(a)	Track Changes	(b)	Zoom feature	
		(c)	Print Preview	(d)	Auto Filter	(1)
	(iv)	Whi	ch of the following is not an organizational sl	kill o	f an entrepreneur?	
		(a)	Managing teams	(b)	Setting targets	
		(c)	Building and motivating a team	(d)	Creating software programs	(1)
	(v) Which of the following is not an entrepreneurial competency?			petency?		
		(a)	Persistence	(b)	Commitment	
		(c)	Aversion to risk	(d)	Systematic planning	(1)
	(vi)	Spre	eadsheet programs have become very popula	r be	cause:	
		(a)	A Spreadsheet program allows users to cre text to complex scientific reports.	ate,	edit and format documents, ra	anging from basic
		(b)	They have built-in functions that make calcu	ılatio	ons easier, faster and more acc	urate.
		(c)	They have large volumes of data that can be	e ea	sily handled and manipulated.	
		(d)	Data can be exported to or imported from o	othe	r similar software applications.	(1)

2.	Answ	ver any 5 out of the given 6 questions.		(1 x 5 = 5 marks)		
	(i)	Which of the following depicts the mu	tiplicative decomposition model?			
		(a) y = trend + seasonal component +	noise			
		(b) y = trend * seasonal component +	noise			
		(c) y = trend * seasonal component *	noise			
		(d) y = trend * seasonal component -	- noise	(1)		
	(ii)	State True or False:				
		Values of K=3, 5 and 10 are common v	alues in K-fold cross-validation.	(1)		
	(iii)	is a measure of rando is a measure of randomn	mness in the information being processed ar ess between two random variables.	nd		
		(a) Cross Entropy, Entropy	(b) Entropy, Cross Entropy			
		(c) Learning Rate, Entropy	(d) Entropy, Mean Bias	(1/2 + 1/2)		
	(iv)	Which of the following is not an AI dev	relopment tool?			
		(a) Keras	(b) TensorFlow			
		(c) Scikit-Learn	(d) C	(1)		
	(v)	Which map is used to show areas wi severity of the impact?	th different shapes in which larger the size	e, the higher is the		
		(a) Graduated Symbol Maps	(b) Dot Map			
		(c) Heat Map	(d) Dorling Map	(1)		
	(vi)	Data Storytelling uses narrative elemen	nts of characters, setting, conflict and			
		(a) Maps	(b) Resolution			
		(c) Language	(d) Visuals	(1)		
3.		Answer any 5 out of the given 6 questi	ons.	(1 x 5 = 5 marks)		
	(i)	Mean Bias Error (MBE) takes thevalue and not the actu	and the			
		(a) Target, Actual	(b) Actual, Bias			
		(c) Target, Predicted	(d) Predicted, Actual	(1/2 + 1/2)		
	(ii)	Assertion (A): Data stories are more in	teresting and engaging than looking at data			
		Reason (R): Data stories transform a dry collection of facts to something that is more thought-provoking and inspirational.				
		Select the appropriate option for the s	tatements given above:			
		(a) Both A and R are true and R is the	e correct explanation of A.			
		(b) Both A and R are true but R is not	the correct explanation of A.			
		(c) A is true but R is false.				
		(d) A is false but R is true.		(1)		
	(iii)	State True/False:				
		Hyperparameter tuning can be done b	y methods like Grid Search and Bayesian Op	timization. (1)		
	(iv)	Feature Engineering, Model Training a Science Life Cycle.	nd Model Evaluation are part of	stage of Data		
		(a) Problem Scoping	(b) Danley was and			
		(a) Troblem Scoping	(b) Deployment			

	(v)	The correct sequence of stages of design this	nking is:	
		(a) Empathize–Define–Ideate–Prototype–T	est	
		(b) Empathize–Define–Prototype–Test–Ide	ate	
		(c) Ideate-Define-Prototype-Test-Empath	nize	
		(d) None of these		(1)
	(vi)	State True/False:		
		In K-fold cross-validation procedure, make_binary classification data set.	classification() function can be used to create	a synthetio
4.		Answer any 5 out of the given 6 questions.	(1 x 5 :	= 5 marks)
	(i)i:	s the sum of individual absolute errors divide	d by demand. It is the average of	
		percentage errors.		(1)
		(a) MAPE	(b) MSE	
		(c) MBE	(d) RMSE	
	(ii)	Which of the following is a model paramete		
		(a) Coefficients or weights of linear and log		
		(b) Weights and biases of a neural network	(
		(c) Cluster centroids in clustering		(1)
	/:::\	(d) All of these	sts for getting a high-level overview of market flu	(1)
	(iii)	(a) Pie Chart	(b) Funnel Chart	ctuations:
		(c) Candlestick Chart	(d) Heat Map	(1)
	(iv)	State True/False:	(a) Treat Map	(±)
	(,	•	n-test split is sufficient for smaller data sets wh	ilecross-
		validation is sufficient for larger data sets.	·	(1)
		(a) Classification, Regression	(b) Univariate, Bivariate	
		(c) Wordclouds, Radial Flow Maps	(d) Dot Maps, Heat Maps	
	(v)	Which of the following measures the differ the target variable?	ence between actual outcome and expected o	utcome of
		(a) Bias	(b) Precision	
		(c) Mean Absolute Percentage Error	(d) None of these	(1)
	(vi)	Exploratory Data Analysis (EDA) can be divide and	ed into two types of visualization analysis:	
		(a) Classification, Regression	(b) Univariate, Bivariate	
		(c) Wordclouds, Radial Flow Maps	(d) Dot Maps, Heat Maps	(1)
5. /	Answ	ver any 5 out of the given 6 questions.	(1 x 5	= 5 marks)
	(i)	Which of the following is a cross-validation	·	
		(a) K-Fold Cross Validation	(b) Holdout Method	
		(c) Both (a) and (b)	(d) None of these	(1)
	(ii)	Which of the following AI Software incorpor Analysis and Chatbot?	ates all features like Speech Recognition, Predic	tive
		(a) OpenNN	(b) Apache Mahout	
		(c) Scikit-Learn	(d) IBM Watson	(1)
	(iii)	Which of these is not a parameter in Gradie	-	
		(a) Machine Rate	(b) Learning Rate	
		(c) Starting Point	(d) Gradient Function	(1)

	(iv)	Hyperparameters arelearning/training.	to the model because the model cannot change in	ts values during
		(a) External	(b) Internal	(1)
	(v)	State True/False:		
		Naive Bayes and Support Vector N	Machines are examples of Linear Algorithms.	(1)
	(vi)	In an objective function, the starti	ng point is frequently taken as anun	nber. (1)
		(a) Zero	(b) Unique	
		(c) Duplicate	(d) Random	
		Section B:	SUBJECTIVE TYPE QUESTIONS	
Answ	er any	3 out of the given 5 questions on	Employability Skills. (2	x 3 = 6 marks)
Answ	er eac	h question in 20–30 words.		
6.	What	do you understand by internal or	external motivation?	(2)
7.	Write	e four factors that can influence a p	person's personality.	(2)
8.	What	do you mean by filtering data and	sorting data in a spreadsheet?	(2)
9.	Write	e four barriers to becoming an entr	repreneur.	(2)
10.		do persistence and assertiveness partepreneurial goals?	play a key role in the success of an entrepreneur and	in achievement (2)
Answ	er any	4 out of the given 6 questions in	20–30 words each. (2	x 4 = 8 marks)
	With	the help of a suitable example, ex	plain a confusion matrix.	(2)
11.			plain a confusion matrix. Properties of a common split percentage.	(2) (2)
11. 12.	How		? Give an example of a common split percentage.	
11. 12. 13.	How What	do you configure a Train-Test Split	? Give an example of a common split percentage. ime series data?	(2)
11. 12. 13. 14.	How What List fo	do you configure a Train-Test Split are the different components of t ew performance metrics of model	? Give an example of a common split percentage. ime series data?	(2)
